Greetings Pilgram

Greetings,

At the Vermont Energy Partnership, we advocate for clean, reliable energy resources to sustain the state of Vermont for future generations. I was also a firsthand witness to Vermont Yankee's premature closure and its effect on southern Vermont. Thanks to the recent sale of Vermont Yankee to NorthStar, Vermont is decades ahead of schedule to bring new jobs and economic opportunity to the former Yankee site – and the same should be done for Pilgrim Nuclear Power Station. Holtec's experience, along with its partners CBI and SNC-Lavalin, will create the same new start for Plymouth as NorthStar did for Vernon. I hope you will grant Plymouth the same new opportunity as you did for Vernon and Vermont and approve Pilgrim's sale to Holtec.

Brad Ferland  
President, Vermont Energy Partnership
