SUBJECT: WINDHAM COMMUNITY MEMORIAL HOSPITAL, INC., ACCEPTANCE OF
NOTIFICATION OF INDIRECT CHANGE OF CONTROL, MAIL CONTROL NO.
610559

Dear Mr. Temkin:

By the letter dated October 26, 2018, Windham Community Memorial Hospital, Inc. submitted to the U.S. Nuclear Regulatory Commission (NRC) a request for written consent to an indirect license transfer of NRC Materials License No. 06-15203-01. Based on the information provided, the NRC understands that Windham Community Memorial Hospital, Inc. became a wholly owned subsidiary of Hartford Healthcare Corporation (HHC) in 2009 as a result of an acquisition. As such, control of Windham Community Memorial Hospital, Inc. was indirectly transferred to HHC, its new parent company. We further understand that this transfer will not result in any changes to the licensee name, licensed materials, persons using the licensed material, location of use, or persons responsible for the radiation safety program.

This was effectively a request for post-hoc approval of an indirect transfer that occurred in 2009, without receiving written consent from the Commission. Failure to receive written consent prior to an indirect license transfer is contrary to the requirements of Section 184 of the Atomic Energy Act of 1954 and 10 CFR 30.34(b)(1). The NRC conducted an inspection on October 16, 2018 and the inspector determined that a violation of 10 CFR 30.34(b)(1) had occurred and cited a Severity level IV violation.

As more fully detailed in the enclosed Safety Evaluation Report, which documents the NRC staff's review of the request, the NRC consents to the transfer. Please note that since this transaction occurred in 2009, no other action is required. If you have any questions regarding this letter, please contact Farrah Gaskins at (610) 337-5143 or via electronic mail at Farrah.Gaskins@nrc.gov.

Future changes in the licensee's name, licensed use, licensed materials, licensed location, or persons responsible for licensed material require submission of a request to amend the license. NRC approval must be received prior to implementation of the proposed change.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation in this matter.

Sincerely,
