SUBJECT

Clarification of a response to a request for additional information (RAIs) the Trojan Independent Spent Fuel Storage Installation (ISFSI) renewal application

SUMMARY

A teleconference was held between NRC, Portland General Electric (PGE) to discuss PGE's response to financial RAIs on the Trojan ISFSI renewal application, which were provided to NRC by letter dated Feb 21, 2019. A list of the participants is provided on page two.

The purpose of the call was for: (1) NRC to request clarification on a potentially incomplete RAI.

NRC staff noted that information to address 77.22(e) appeared to be incomplete. The RAI response provided operating costs and financial assurance through 2034, while the license renewal application requested a 40-year renewal period running to 2059. PGE plans to supplement the RAI response with information for the additional years.

Continue on Page 2

ACTION REQUIRED (IF ANY)

The participants identified a follow-up action to identify the time frame for clarifying the RAI response.
