Emmitt McGowan
Deputy State Director of Emergency Management/Homeland Security
Michigan State Police
Emergency Management and Homeland Security Division
P.O. Box 30634
Lansing, MI 48909

Dear Captain McGowan:

Enclosed is the Final After Action Report/Improvement Plan for the Fermi 2 Nuclear Power Plant Radiological Emergency Preparedness Medical Service and School Evacuation Drills conducted on October 29 and November 29, 2018.

There were no findings identified. There was one planning issue identified. Please see the report for further details.

Based on the results of the exercise, the planning and preparedness for both the State of Michigan and the affected local jurisdictions continue to provide reasonable assurance that appropriate measures can be taken to protect the public health and safety. Therefore, Title 44 CFR 350 approval of the offsite radiological emergency response plans and preparedness program remain in effect.

If you have any questions, please contact Sean O'Leary, Chair, Regional Assistance Committee, at (312) 408-5389.

Sincerely,

James K. Joseph
Regional Administrator
