On March 20, 2019, GE Hitachi Nuclear Energy Americas LLC (GEH) provided NRC a revised Vallecitos Nuclear Center (VNC) Site Physical Security Plan dated March 19, 2019 (Reference 2) with changes that have been internally reviewed and documented as those that do not decrease the plan effectiveness and do not require prior NRC approval in accordance with 10 CFR 70.32(e).

As discussed with NRC staff on March 6, 2019 (Reference 3), GEH requests a license amendment for NRC License SNM-960, Safeguards Condition SG-1.1, to add a statement "and as it may be further revised in accordance with the provisions of 70.32(e)".
