RAML #: 24-18968-01
Exp Date: 7/31/2021
Subject: Authorized User Correction

To Whom It May Concern:

During an audit of our program an apparent administrative error was discovered on the above referenced radioactive materials license. Radiologist authorized users for I-131 (35.300 use) are listed as limited to I-131 in amounts **greater** than or equal to 33 millicuries on the most recent amendment, #57. This is an administrative error and was not requested by the licensee. All authorize users in question were approved for I-131 in amounts **less** than or equal to 33 millicuries on previous license amendments.

The following authorized users are approved for 35.300 (limited to the oral administration of sodium iodide I-131 in quantities less than or equal to 33 millicuries) but are listed on amendment 57 as authorized for greater than 33 millicuries:

Punita Gupta, M.D.
Heather V. Garrett, M.D.
Constance Courtois, M.D.
Joelle Biernacki, M.D.
Robert Stachecki, M.D.
Ajay Chapa, M.D.
Paula M.Leiva, M.D.
James Kelly, M.D.

Please amend the license to reflect these physicians' authorizations as originally approved. RAML 24-18968-01 amendment 56 is the most recent copy of the license which lists these physicians' authorizations.

Sincerely,

Constance Courtois, M.D.
