---

Mr. Lawyer,

This email is in reference to the amendment request dated February 25, 2019 in regards to RAM license number 34-32780-02, Cardinal Health PET Manufacturing Services, East Hartford, CT.

Following our phone conversation on Tuesday, we have reviewed the licensing documentation for this facility in regards to ALARA action levels for personnel dosimetry. We concur with your determination that there are presently no commitments for this license regarding the explicit action level values for whole-body dosimetry. Therefore, we would like to withdraw the request made in the referenced letter.

If you need additional documentation of this decision, please let me know. Thanks for your time and effort in reviewing the request.

Sincerely,  
Evan Western
