SUBJECT:
Davis-Besse Nuclear Power Station, Unit No. 1
Docket No. 50-346, License No. NPF-3
Supplemental Information for the Proposed Post-Shutdown Emergency Plan License Amendment (EPID L-2019-LLA-0011)

By letter dated February 5, 2019 (Accession No. ML19036A524), FirstEnergy Nuclear Operating Company (FENOC) submitted a license amendment request to revise the Davis-Besse Nuclear Power Station (DBNPS) Emergency Plan for the post-shutdown and permanently defueled condition. Enclosure B of that letter contained the reviews of the proposed DBNPS emergency plan by the local counties and the State of Ohio. After the submittal was made, it was determined that the State of Ohio review was not included in the enclosure.

Therefore, the enclosure to this letter provides the State of Ohio review of the DBNPS proposed shutdown emergency plan. The information contained in this letter does not impact the conclusions of the no significant hazards consideration determination or environmental considerations of the original request provided in the February 5, 2019 letter.

There are no regulatory commitments contained in this letter. If there are any questions, or if additional information is required, please contact Mr. Thomas A. Lentz, Manager, FENOC Nuclear Licensing and Regulatory Affairs, at (330) 315-6810.

I declare under penalty of perjury that the foregoing is true and correct. Executed on April 10, 2019.

Sincerely,

Mark B. Bezilla

Dear Mr. Zalesny,

Based on our discussions during our meeting on November 26, 2018, concerning FENOC's Post Shutdown Emergency Plan License Amendment Request for Davis-Besse Nuclear Power Station, we are satisfied we understand the changes proposed and we are satisfied that these changes will not impact the ability of the Ohio Emergency Management Agency to effectively implement our FEMA approved REP plans.

Sincerely,

Christopher M. Salz
