**Subject:** [External\_Sender] RE: 10 CFR 30.36(d) notification  
**Date:** Friday, March 29, 2019 7:58:47 AM

---

Mr. Lawyer-

Argus Energy WV, LLC recognizes decommissioning of the nuclear gauge device at the Wayne County River Terminal must be completed within two years. At this point in time, Argus does not anticipate problems in completing the decommissioning or need of regulatory relief from required surveillance.

Thank you for your assistance.

Mr. Adams,

We received your 10 CFR 30.36(d) for the Wayne County River Terminal, NRC license #47-25543-01. Please inform me if you are able to proceed with decommissioning and have it completed within two years or if you foresee having problems completing. During the decommissioning phase, do you need any regulatory relief from the required surveillances? If not, I will write you a letter accepting the notification.
