Enclosure 1

10 CFR 72.48 Determination Summary Report

for the

**NAC-MPC FSAR, Revision 12
(Docket No 72-1015)**

**Period Covered:
April 2018 – April 2019**

NAC International

April 2019

72.48 Determination ID #NAC-19-MPC-001

Change Description

The FSAR has been revised to Revision 12 to incorporate changes made in Amendments 7 and 8.

Revised License Drawing 630045-866
Revised FSAR Chapters 1, 3, 4, 9, 11 and 12

Source of Change: 72.48 Determination ID # NAC-19-MPC-001

72.48 Evaluation Required: NO

72.48 Evaluation Summary: N/A

Originating Document: DCR(L) MPC-FSAR-11A

Amendment 7 (submittals 17A, 18A) and Amendment 8 (submittal 18B) have been consolidated and incorporated into Revision 11 of the MPC FSAR to become Revision 12. Amendment 7 (submittal 17A) included one License Drawing, 630045-866, Revision 3, detailed below.

Originating Document: DCR(L) 630045-866-02A

Sheet 1:

1. Added note 22 that reads: "4x4x.032" welded wire cloth or 18 x 18 x.02" woven wire cloth."
2. B.O.M., Item 17 (Screen), revised description to "See Note 22", was "4 x 4 x .032" welded wire cloth".
3. B.O.M., Item 29 (Inlet Screen), revised description to "See Note 22", was "18 x18x.02" woven wire cloth"

Drawing 630045-866 Revision summary (as presented in Submittal 18A, Amendment 7 Supplement)

NAC license drawing 630045-866 was revised (Revision 2) in support of a site-specific licensing submittal for the Waste Control Specialist (WCS) Central Interim Storage Facility (CISF). The information contained in Revision 2 is pending regulatory approval and is not germane to this application. The initial Amendment 7 submittal only contained a NAC internal design change request showing requested changes to the screen mesh size for the concrete overpack. This design change would have resulted in Revision 3 of drawing 630045-866. However, since the review of the WCS CISF application has been suspended and the changes presented in Revision 2 are not applicable to this amendment application, NAC has decided to revise the drawing by

removing the information introduced in Revision 2. This has resulted in revision 4 drawing to 630045-866.

In summary, the differences between Revision 1 and Revision 4 of drawing 630045-866 is only the information related to the screen mesh size (Note 22 and B.O.M. Items 17 and 29). Therefore, NAC is requesting NRC review and approval of Revision 4, which includes changes presented in Revision 3 and the removal of unrelated changes presented in Revision 2.

Drawing 630045-866, Sheet 1 of 7, Revision 3

Sheet 1:

4. Added note 22 that reads: "4 x 4 x .032" welded wire cloth or 18 x 18 x .02" woven wire cloth."
5. B.O.M., Item 17 (Screen), revised description to "See Note 22", was "4 x 4 x .032" welded wire cloth".
6. B.O.M., Item 29 (Inlet Screen), revised description to "See Note 22", was "18 x 18 x .02" woven wire cloth".

Drawing 630045-866, Sheet 1 of 7, Revision 4

Sheet 1:

1. Deleted Delta notes 16-21
2. Deleted B.O.M., Item 33-37
3. Deleted B.O.M., Assemblies 95 and 96.

Sheet 2:

1. Deleted Assembly 96 graphics

Sheet 5:

1. Deleted Assembly 96, Section A-A and B-B graphics

Sheet 6:

1. Deleted all graphics from the sheet

Sheet 7:

1. Deleted Assembly 95 graphics
