NRC Form 313 Amendment

C&C Irradiator Service, LLC is requesting an amendment to license 08-35447-01. This amendment will include the following:

In the Radiation Safety Manual, within section 6.3 "Instruction for self-shielded irradiators and Calibrators (ANSI Category I)", C&C is removing the phrase, "At this time, C&C Irradiator Service is not authorized to remove or install hardening."

C&C's intention to remove the IDD kits will comply with NUREG 1556 Vol. 5, Section 8.10.8, Page 8-38 excerpt 20 through 34. We would like to provide this letter as a license condition under section 18 in our NRC license to clarify our ability to remove these kits, if necessary, to solely perform decommissioning activities to self-shielded irradiators we are licensed to service.

If you have any questions or need more information regarding this amendment, please do not hesitate to contact us.

Thank you,

A handwritten signature in black ink, appearing to read 'Christopher Nostrand'.
