Dear Dr. Amurao:

Enclosed is Amendment No. 100 to your NRC Materials License No. 24-00167-11 in accordance with your request to review documentation associated with the cessation of principal activities at Olin Residence Hall, 4550 Scott Avenue, St. Louis, Missouri (Mail Control Number 609670).

Based upon NRC review of documentation received, we have no additional questions concerning your request. In accordance with 10 CFR 30.35(g), the licensee is required to keep all records of information important to the decommissioning of a facility, including those provided to the NRC, in an identified location until license termination.

The NRC has reviewed the documentation provided and, based upon the information provided, does not have additional questions concerning your request.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(20)(iii).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to

The enclosed document contains sensitive security-related information.
