Docket Nos. 50-280

50-281

Attn: Mr. Robert W. Reid, Chief  
Operating Reactors Branch 4

License Nos. DPR-32  
DPR-37

Dear Mr. Case:

This is in response to your letter of June 16, 1977 wherein you requested information regarding a double-ended pump suction pipe break loss of coolant accident. As you are aware, this analysis has never been required at Surry and the information is not readily available. We have taken steps to acquire the requested information from our Architect-Engineer, but will be unable to do so in the time specified in your letter. We expect to have the information in final form in the second week of August, and should be able to complete our review and forward our response to you by August 31, 1977.

Very truly yours,

*C. M. Stallings*

C. M. Stallings  
Vice President-Power Supply  
and Production Operations

cc: Mr. Norman C. Moseley
