VIRGINIA ELECTRIC AND POWER COMPANY  
RICHMOND, VIRGINIA 23261

April 18, 1975

REGULATORY DIVISION

Mr. K. R. Goller, Assistant Director  
for Operating Reactors  
Division of Reactor Licensing  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Serial No. 467/031475  
PO&M/JTB:clw

Docket Nos. 50-280  
50-281  
License Nos. DPR-32  
DPR-37

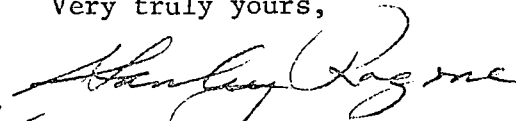

Dear Mr. Goller:

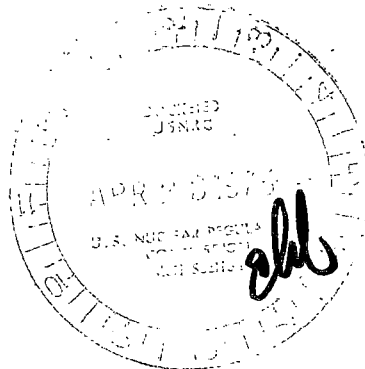

This is in response to your letter of March 14, 1975 requesting additional information in regard to the long-term cooling capability of the emergency core cooling system (ECCS) at our Surry Power Station, Unit Nos. 1 and 2.

We recently received a letter from our nuclear steam supply system manufacturer, the Westinghouse Electric Corporation, stating their position on this matter. We understand that Westinghouse has had generic discussions with the Regulatory Staff on this matter, and in a letter dated April 1, 1975, Westinghouse letter CLC-NS-39, forwarded you a report documenting their position.

Our staff is presently reviewing the Westinghouse report and the other items requested by your letter. We plan to complete this review in about thirty (30) days and will forward our response upon completion of that review.

Very truly yours,

  
C. M. Stallings  
Vice President-Power Supply  
and Production Operations
