PART I.A -- FEES

PART I.B -- INFORMATION NOT LOCATED OR WITHHELD FROM DISCLOSURE

- We did not locate any agency records responsive to your request. *Note:* Agencies may treat three discrete categories of law enforcement and national security records as not subject to the FOIA ("exclusions"). See 5 U.S.C. 552(c). This is a standard notification given to all requesters; it should not be taken to mean that any excluded records do, or do not, exist.
- We have withheld certain information pursuant to the FOIA exemptions described, and for the reasons stated, in Part II.
- Because this is an interim response to your request, you may not appeal at this time. We will notify you of your right to appeal any of the responses we have issued in response to your request when we issue our final determination.

PART I.D -- COMMENTS

Upon receipt of your request, we tasked staff in the Offices of Nuclear Reactor Regulation (NRR), New Reactors (NRO), Nuclear Regulatory Research (RES), and Region IV to search for any responsive records. None were located. NRC staff has informed us that they have had no communications, oral or written, with PG&E about any differences of opinion between the reports produced by the PG&E-appointed SSHAC Peer Review Panel and the Diablo Canyon Independent Review Panel appointed by the California Public Utility Commission; nor has NRC staff engaged with any external agencies about this matter.

If you have not already done so, you may wish to refer to the ADAMS web packages for two prior FOIA requests that we processed in 2015 about the DPO filed with respect to Diablo Canyon. The first of the two requests was FOIA/PA-2014-0488 (ML15258A566) and the second was FOIA/PA-2015-0071 (ML15208A173). You may also wish to review the documentation published about the DPO, which may be found at ML14252A743.
