Andrea Kock, Director
Division of Materials Safety, Security, State and Tribal Programs
Office of Nuclear Material Safety and Safeguards
United States Nuclear Regulatory Commission
Washington, DC 20555-0001

Dear Ms. Kock,

The Vermont Department of Health is pleased to submit its Application to Become an Agreement State for Nuclear Regulatory Commission (NRC) review. We appreciate the significant assistance of the NRC team which helped us revise our draft application for previous comments.

Attached with this letter in an email are the Application Sections separated in accordance with the subsections to *Section 4.0 Information Needed and Evaluation Criteria* of the Handbook for Processing an Agreement. The Letter of Certification from the Governor of Vermont should be expected very soon.

We look forward to working with the NRC on the completion of our Application to Become an Agreement State over the course of the next several months. Please do not hesitate to contact me should you require assistance.

Thank you.

William Irwin, ScD, CHP
Radiation Control Program Director
Radiological Sciences Program Chief
