General Comment

This comment is regarding the NRC seeking suggestions as to where the at least 10 spots for public meetings regarding decommissioning of nuclear power plants and local advisory boards, would best be located. I would like to nominate Southwest Michigan as one of the locations. The reason being that Palisades Nuclear Power Plant, located in Covert, MI and near South Haven is scheduled to begin decommissioning in 2022. Another nuclear power plant, Cook NPP is in Southwest Michigan, as well. Michigan has another nuclear power plant, Fermi Unit 2, with a license set to expire in about 5 years.

Thank you for your consideration of this suggestion.
