Mr. Gallagher,

By letter dated July 10, 2018, (Agencywide Documents Access and Management System (ADAMS) Package Accession No. ML18193A689), the Exelon Generation Company, LLC, (Exelon) submitted to the U.S. Nuclear Regulatory Commission (NRC or staff) an application to renew the Renewed Facility Operating License Nos. DPR-44 and DPR-56 for the Peach Bottom Atomic Power Station, Units 2 and 3 (Peach Bottom).

The NRC staff is reviewing the information contained in the subsequent license renewal application and has identified, in the enclosure, areas where additional information is needed to complete the review.

Clarification calls were held on each of the RAIs that were requested by your staff.

These requests for additional information were discussed with David Distel of your staff, and a mutually agreeable date for the response is within 30 days from the date of this email.

If you have any questions, please contact me by e-mail Bennett.brady@nrc.gov.
