Docket No.(no hyphens): 03004675

Mail Control/Report No. 611525

Licensee Name: US Department of Health and Human Services, Food and Drug Administration

Participant(s) Name/Title: Elon Malkin, Radiation Safety Officer

Work Telephone No. 781-756-9814

Business Cellphone No. Unknown

NRC Representative Name/Title: Dennis Lawyer, Health Physicist

Subject: RAI, Tritium and Nickel 63 authorization

Discussion: I discussed with Mr. Malkin that the current amount of tritium on his license did not match up with the last certification of financial assurance. I also discussed that it didn't make sense that he had an additional line for tritium as he issues permits for areas of use and can control the amount of tritium through that as well as committing to the amount of tritium use to us in the submittal. He concurred and we agreed that the line item 6.AA. (tritium) will be deleted and the tritium and the locations needing tritium not in Massachusetts can refer to 6.D. The second item is that there are two line items for Nickel-63, where 6.Z. is used in St. Louis. In order to make sense of the license, I suggested that 10.A. would state for material 6.A. through 6.Y. Mr. Malkin concurred.

Action Required: Make additional changes as above.
