REQUEST FOR SUPPLEMENTAL INFORMATION

Dear Ms. Manzione:

By letter dated September 28, 2018, Holtec International (Holtec) submitted an application to the U.S. Nuclear Regulatory Commission (NRC) for Certificate of Compliance No. 1040, Amendment No. 4, to the HI-STORM UMAX System, pursuant to the requirements of Part 72 of Title 10 of the *Code of Federal Regulations*.

The staff has performed an acceptance review of your application to determine if the application contained sufficient technical information to begin a detailed technical review. The staff has determined that the application does not provide sufficient technical information to begin a detailed review and that additional supplemental information is needed. The information needed to continue our review is described in the attached enclosure: Request for Supplemental Information (RSI).

In order to schedule our technical review, responses to the enclosed RSI should be provided within 30 days from the date of this letter. If Holtec is unable to meet this response date, please notify us at least two weeks in advance of your new submittal date and the reasons for the delay. If Holtec is not able to respond within this timeframe or RSI responses provided to the NRC do not provide sufficient information, the application may not be accepted for review.

Please reference CAC No. 001028, Docket No. 72-1040, and EPID: L-2018-LLA-0275 in future correspondence related to the acceptance review for this licensing action. If you have any questions, please contact me at (301) 415-6825.
