Dear Dr. Parikh:

This refers to your amendment request, dated January 15, 2019, to expand the use of an authorized user via a 1993 board certification, and our phone conversation on February 21, 2019 and email conversation on April 15, 2019. In both discussions it was explained that the information submitted does not meet our requirements and more information was needed to approve the request.

As mentioned in the email conversation, we have voided your request for the expanded use based on insufficient information. This action is without prejudice to resubmission. If you resubmit your request, in order to avoid an additional fee, please state that the resubmission is additional information to Control Number.

Please note, however, that if you request any other changes to your license in addition to providing the above, referenced responses, an amendment fee will be required.

If you have any questions or require clarification on any of the information stated above, you may contact us at (630) 829-9887.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Strohmeyer", written over a horizontal line.
