Subject: [External_Sender] RE: ACTION: Request Review of Proposed Mark-up of Conforming Amendment -Oyster Creek License Transfer Application (L-2018-LLM-0002) by MAY 1, 2019 (LTA)
Date: Monday, April 29, 2019 3:47:21 PM

Amy,

Exelon and Holtec have completed the review of the Oyster Creek draft license pages as provided by you on 4/24/19. There are two comments:

- Section 2.B.(2) – 104B should be 104b
- Section 3.N - NRC-proposed License Condition 'N' should be revised to reflect no Nonqualified assets being transferred, as only Qualified assets are being transferred:
 - At the time of the closing of the transfer of Oyster Creek, and the respective license from Exelon Generation Company to Oyster Creek Environmental Protection and Holtec Decommissioning International, Exelon Generation Company shall transfer ownership and control of assets from the Oyster Creek Nuclear Generating Station Qualified Fund and the Oyster Creek Nuclear Generating Station Nonqualified Fund to the Oyster Creek Environmental Protection Qualified Nuclear Decommissioning Trust and the Oyster Creek Environmental Protection Nonqualified Nuclear Decommissioning Trust. Also at the time of the closing, decommissioning funding assurance provided by Oyster Creek Environmental Protection, using a method allowed under 10 CFR 50.75, must be equal to or greater than the minimum amount calculated on that date pursuant to, and required by 10 CFR 50.75 for Oyster Creek. Furthermore, funds dedicated for Oyster Creek prior to closing shall remain dedicated to Oyster Creek following the closing.

Please let me know if you have any questions. Thanks, Amy.

Dave
