Good Morning,

I am working on the amendment and new license for Venocure and Michigan Cardiology. Since the request came in under one letter I am contacting you both.

For Venocure, I need a letter signed by a member of that organization, preferably the CEO. I know Jim is listed as RSO, but since he is a consultant, it would be better to have someone from management confirming, especially since the people taking over the location do not seem to be associated with the current license. A letter explaining the reason for the request and confirm the location removal will suffice.

For Michigan Cardiology, there is no diagram in the application. There is a space for it, but no information added. Also, for clarity on the two locations listed on the letterhead, one of them already being the location being transferred and the other I believe was a location removed from another license previously.

Please provide the information by May 6, 2019 and contact me with any questions at your convenience.

Cheers,  
Daniel
