

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

June 4, 2019

Mr. Daniel G. Stoddard
Senior Vice President and
Chief Nuclear Officer
Innsbrook Technical Center
5000 Dominion Blvd
Glen Allen, VA 23060

SUBJECT: ISSUANCE OF ENVIRONMENTAL SCOPING SUMMARY REPORT
ASSOCIATED WITH THE STAFF'S REVIEW OF THE SURRY POWER
STATION, UNIT NOS. 1 AND 2, SUBSEQUENT LICENSE RENEWAL
APPLICATION (EPID NO. L-2018-RNW-0024)

Dear Mr. Stoddard:

The U.S. Nuclear Regulatory Commission (NRC) conducted the environmental scoping process and solicited public comments from December 20, 2018, to January 22, 2019. This process determined the scope of the staff's environmental review of the application for subsequent renewal of the renewed facility operating licenses for Surry Power Station, Unit Nos. 1 and 2, (Surry). The scoping process is the first step in the development of a Surry-specific supplement to NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (Agencywide Documents Access and Management System (ADAMS) Accession Nos. ML13106A241, ML13106A242, and ML13106A244).

As part of the scoping process, the staff held one public environmental scoping meeting in Surry County, VA, on January 8, 2019, to solicit public input regarding the scope of the review. The staff also received written comments by letter, e-mail, and through www.Regulations.gov. At the conclusion of the scoping process, the staff prepared the enclosed environmental scoping summary report identifying comments received during the scoping period. In accordance with Section 51.29(b) of Title 10 of the *Code of Federal Regulations* (10 CFR), the staff will send a copy of the scoping summary report to all participants in the scoping process.

The transcripts of the public scoping meetings are available for public inspection via the NRC's ADAMS from any personal or public computer, including the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. The ADAMS Public Electronic Reading Room is accessible at <http://www.nrc.gov/reading-rm/adams.html>. The transcript of the meeting is listed under ADAMS Accession No. ML19140A449. Persons who encounter problems in accessing documents in ADAMS should contact the NRC's PDR reference staff by telephone at 1-800-397-4209 or 301-415-4737 or by e-mail at pdr.resource@nrc.gov.

If you have any questions concerning the staff's environmental review of this subsequent license renewal application, please contact the project manager, Mr. Tam Tran, by telephone at 301-415-3617 or by e-mail at tam.tran@nrc.gov.

Sincerely,

/RA/

Eric R. Oesterle, Chief
License Renewal Projects Branch
Division of Materials and License Renewal
Office of Nuclear Reactor Regulation

Docket Nos. 50-280 and 50-281

Enclosure:
As stated
