

Oyster Creek Stakeholder Information Forum Overview

PURPOSE: Stakeholder Information Forums (SIF) will be held at least once a year to inform external stakeholders of plans of the decommissioning of the Oyster Creek Generating Station. Company decommissioning, and station leaders will present information to the stakeholders and open the forum for candid discussions about issues, concerns, rumors and misunderstandings. The forums will equip governmental and community leaders with facts and information that they can share with their constituencies as they see fit.

The formal SIF meetings will be held once a year around June and open for public observation.

SIF meetings will be supplemented once a year in December with an annual State of the Plant (SOP) dinner meeting. At the SOP meetings, stakeholders will be invited to a special reception where they can speak one on one with company and station leaders on a more personal level about topics of interest. An overview of station activities since the June SIF meeting will also be presented.

SOP meetings will be held at an area restaurant or reception area and will not be open for public observation.

GOALS:

- To transparently provide information about the decommissioning of the Oyster Creek Generating Station to key external stakeholders so they better understand the activities that are planned and underway and can explain these matters to their constituents.
- To ensure that stakeholders are comfortable and trusting of company activities as decommissioning gets well underway.
- To provide a forum for stakeholders to ask questions and air concerns about decommissioning with company experts.
- To allow the public the ability to observe the interaction between the company and key stakeholders as it pertains to Oyster Creek.

RESPONSIBLE PERSON/LEAD: The Oyster Creek Site Communications Manager will take the lead in planning and facilitating the meeting. The meetings themselves will be led by the station manager.

MEETING SCHEDULE: SIF meetings will be held annually in June. SOP meetings will be held annually in December.
