Mr. Lyman (for Mr. Lochbaum):

I am contacting you (on behalf of Mr. Lochbaum who is no longer with the Union of Concerned Scientists) to provide a status update on the petition for rulemaking Mr. David Lochbaum submitted to the U.S. Nuclear Regulatory Commission (NRC), dated September 1, 2016, on behalf of the Union of Concerned Scientists and co-petitioners Jim Riccio (Greenpeace) and Geoffrey H. Fettus (Natural Resources Defense Council). In this petition, Mr. Lochbaum requested that the NRC amend Part 50 of Title 10 of the Code of Federal Regulations (10 CFR), "Domestic licensing of production and utilization facilities," to "promulgate regulations applicable to nuclear power reactors with operating licenses issued by the NRC but in an extended outage." The NRC docketed Mr. Lochbaum's letter as petition for rulemaking PRM-50-114, and the NRC published a notice of receipt in the Federal Register on December 9, 2016 (81 FR 89011). The status of PRM-50-114 can be found at the NRC Rules and Petition page at <https://www.nrc.gov/reading-rm/doc-collections/rulemaking-ruleforum/active/PetitionIndex.html>. At this Web site there is a link to a listing of all active NRC PRMs. You can monitor this site for status updates as they become available.

You can also continue to monitor the docket for PRM-50-114 at <http://www.regulations.gov>. The Federal rulemaking Web site allows you to receive alerts when changes or additions occur in a docket folder. Once the petition has been resolved, the NRC will publish a notice in the Federal Register explaining the NRC's finding. You will also receive a letter at that time notifying you of the action the NRC has taken.

Please contact me at [Dennis.Andrukat@nrc.gov](mailto:Dennis.Andrukat@nrc.gov) or (301) 415-3561 if you have any questions.

Sincerely,  
Dennis
