ARLINGTON, TEXAS 76011-4511

May 22, 2019

EA-18-155

Mr. Doug Bauder
Vice President and Chief Nuclear Officer
Southern California Edison Company
San Onofre Nuclear Generating Station
P.O. Box 128
San Clemente, CA 92674-0128

SUBJECT: SOUTHERN CALIFORNIA EDISON COMPANY RESPONSE TO NRC SPECIAL INSPECTION REPORT 050-00206/2018-005, 050-00361/2018-005, 050-00362/2018-005, 072-00041/2018-001, NOTICE OF VIOLATION, AND PROPOSED IMPOSITION OF CIVIL PENALTY

Dear Mr. Bauder:

On March 25, 2019, the U.S. Nuclear Regulatory Commission (NRC) cited Southern California Edison for two violations that involved failures to: (1) ensure that important-to-safety equipment was available to provide redundant drop protection features for a loaded spent fuel canister during downloading operations and (2) make a timely notification to the NRC Headquarters Operations Center for the August 3, 2018, incident which included disabling of important-to-safety equipment. The Notice of Violation required you to respond in writing within 30 days (Agencywide Documents Access and Management System (ADAMS) Accession No. ML19080A208). You responded by letter dated April 23, 2019 (ADAMS Accession No. ML19116A056).

After reviewing the information you provided in your response to the Notice of Violation, we have concluded that your completed and proposed actions appear to adequately address the regulatory noncompliance's described in the Notice of Violation. We will review your implementation of these corrective actions during a future inspection to determine whether full compliance has been restored and whether compliance will be maintained.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be made available electronically for public inspection in the NRC Public

D. Bauder

2

Document Room or from the NRC's Agencywide Documents Access Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

/RA/

Gregory G. Warnick, Chief
Reactor Inspection Branch
Division of Nuclear Materials Safety
