---

Sarat,

Thanks for the prompt reply. Please send me copies of the following, so we can terminate your license:

- A copy of the receipt from the company, showing that they received back the gauge
- A copy of leak test results, from the last time you had your gauge tested
- A copy of the letter you sent, requesting that your license be canceled.

Thanks you very much,  
Betsy

Betsy,

I sold the gauge back to the company I bought it from in (if memory serves me correctly) early Sept 2017. I also file amendment to cancel my license.

I have been called about this several times and I have told a couple of people I am not in that business anymore.

Please let me know if you need anything further from me.

Thanks,  
Sarat

Mr. Saini,

We have been trying to reach you because the annual fee for your NRC license has not been paid. At the time of your first (and most recent) inspection in July 2017, you stated that you were considering returning your gauge and terminating your license.

We have not received a termination request from you, and we have not received any annual fee as required. Because no fee was received, we are considering if your license to possess and use a portable gauge should be revoked.

Please contact me by email or by phone, to let me know whether you are still using your gauge, and to discuss the next actions that need to be taken with respect to your NRC license.

Thank you,  
Betsy Ullrich
