ACTION REQUIRED (IF ANY)

Please submit your response by April 17, 2019, and reference it to my attention as "additional information to control number 611383" to facilitate proper handling in our office. Your response must be currently dated and signed. If you have any questions or require clarification of any of the information stated above, please do not hesitate to contact me at 630-829-9876

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

NAME OF PERSON DOCUMENTING CONVERSATION

Erin Kennedy

SIGNATURE

CONVERSATION RECORD (continued)

SUMMARY: (Continued from page 1)

1. In your submittal, you did not provide a delegation of authority for the proposed RSO. Please provide a current delegation of authority, signed by both the RSO and someone in your senior management chain (generally director level or higher). For your convenience, a sample delegation of authority is attached to this conversation record.
2. Please provide documentation of appropriate training for the proposed RSO which meets the guidelines outlined in NUREG 1556, Vol. 4, Rev. 1, appendix D. Specifically, please provide documentation which addresses the requirement for supervised hands-on experience which must include operating procedures, test runs of emergency procedures, routine maintenance, and lock out procedures.
3. Due to the requirements of our new licensing process, items 6-9 on your license will be listed in a different format going forward. Specifically, the devices currently authorized in Item 9.A.- 9.D. of your license may need to be formatted with separate authorizations, each with their own possession limit, in accordance with the Sealed Source and Device Registry. As we also discussed, if you would like to increase your possession limit please include the following information for the additional gauges as well.

To help facilitate this change on your license, please provide the following information for each device to be authorized:

- a. Isotope
- b. Device Manufacturer
- c. Device Model
- d. Maximum activity for any single source and number of gauges requested
- e. Total activity requested for devices of this manufacturer and model
- f. If a specific sealed source is used for any of these devices please include the manufacturer and model number of the sealed source
