May 16, 2019

Mr. David Drucker  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Dear Mr. Drucker,

I am writing to oppose Florida Power & Light's plans to extend the operating life of the nuclear reactors at Turkey Point Nuclear Power Plant. The current operations jeopardize the health of Biscayne National Park, threatened and endangered wildlife, Everglades restoration plans, and the quality of South Florida's drinking water.

Only someone with his head in the sand could deny the climate is changing and the seas are rising. Any plan allowing the extension to the operating life of Turkey Point must include concrete measures to address both the water contamination and threats from sea level rise and storm surge to protect Biscayne National Park and the health of surrounding communities and natural areas. Otherwise, the plant should not be allowed to operate and continue to pollute the water supply until cooling canals are decom-missioned and replaced with alternate cooling technology, such as mechanical draft cooling towers. Decide before it is too late.

Sincerely,

Mrs. Sidney Burr
