

**SAFETY INSPECTION REPORT AND COMPLIANCE INSPECTION**

1. LICENSEE/LOCATION INSPECTED:  Chase Environmental Group, Inc. 11450 Watterson Court Louisville, KY 40299  REPORT NUMBER(S) 15000016/2019004		2. NRC/REGIONAL OFFICE  Region III U. S. Nuclear Regulatory Commission 2443 Warrenville Road, Suite 210 Lisle, IL 60532-4352	
3. DOCKET NUMBER(S)  15000016(KY)	4. LICENSE NUMBER(S)  201-605-15 (KY)	5. DATE(S) OF INSPECTION  April 29 - May 2, 2019	

**LICENSEE:**

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

- 1. Based on the inspection findings, no violations were identified.
- 2. Previous violation(s) closed.
- 3. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy, to exercise discretion, were satisfied.

Non-cited violation(s) were discussed involving the following requirement(s):

- 4. During this inspection, certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited in accordance with NRC Enforcement Policy. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11.  
(Violations and Corrective Actions)

**Statement of Corrective Actions**

I hereby state that, within 30 days, the actions described by me to the Inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.

 Field Office Inspection \_\_\_\_\_  
 Temporary Job Site Inspection 8 Research Park Development Building, Columbia, M

**PROGRAM SCOPE**

This was an announced reciprocity inspection of decontamination and decommissioning activities that were being performed by Chase Environmental Group (Chase), a Kentucky licensee. The work was being performed at a University of Missouri - Columbia facility; Research Park Development Building located at 8 Research Park Development Drive, Columbia, Missouri. No characterization or remediation requiring a Decommissioning Plan was performed during the inspection. Chase was performing characterization and remediation activities of a limited nature at the location referred to above to support a Final Status Survey that would be used to confirm the site is able to meet NRC's unrestricted release criteria.

**Performance Observations**

The inspector interviewed Chase site personnel as well as University of Missouri - Columbia personnel and found that staff had adequate knowledge to ensure the safe handling of licensed material and to be in compliance with NRC requirements. The inspector toured the facility and observed Chase personnel performing radiological surveys consistent with proper radiation safety protocols and within NRC regulations. The inspector performed independent radiological assessment and did not identify contamination or radiation fields above expected by either Chase or University of Missouri - Columbia personnel. The inspector also performed side-by-side radiation survey comparisons and did not find any abnormal issues.
