Ms. Gersey –

I appreciate the time you spent onsite, and thank you for this email message listing the exact information that you need. We anticipate responding to the listed items by Friday, May 10, 2019 via email directly to you, as requested.

Attached is a letter stating that the RSO listed on our NRC license is no longer employed by AOG, and that we are currently in the process of amending our license naming Mr. Tracy Welhoff as RSO (*). In the intervening time, I am responsible for implementation of the radiation safety program in accordance with our NRC license and regulations.

(*) Please note that Mr. Welhoff was formerly named as our RSO, has over 20 years of experience, and has previously completed radiation safety officer training.

In the past, I notice that a previous amendment request naming a new RSO was submitted directly to Ms. Carol Hill. Would it be possible to contact Ms. Hill, or have her contact me, to review the amendment request, please? I have the current Form 313,

and only have a few simple questions. Otherwise, the license amendment request naming Mr. Welhoff as our RSO is ready to be submitted now.

Again, thank you for the message and have a good afternoon.

Regards,

J. Allan Bush, P.E.

President

Subject: NRC Inspection

Mr. Bush,

Thank you for your assistance during the April 30, 2019, inspection of your NRC-licensed activities. I understand that the Radiation Safety Officer, which you listed on your NRC radioactive materials license has left the company as of March 15, 2019. You are required to notify the NRC when there are changes to your license. Thus, immediately provide the NRC with a written notification that the RSO listed on the NRC license is no longer employed by your company, an estimate of when this individual will be replaced, and who will be responsible for implementing the radiation safety program in accordance with your NRC license and regulations.

When you identify a new Radiation Safety Officer, please send in a request to amend your license and provide the name, qualifications, list of specific duties and responsibilities, and a signed delegation of authority for this individual. I suggest using the guidance document, NUREG 1556, Vol 1., Rev 2, Consolidated Guidance About Materials Licenses when preparing your amendment request.

In addition, you agreed to provide me with information that could not be located during the April 30, 2019, inspection by Friday May 10. Below is a summary of the documentation I requested:

- 1) A written justification of the decision to cease monitoring radiation workers for occupational exposure and the date that decision was originally made.
- 2) Annual written assessments, from 2014 – 2018, that supports doses to members of the public were below regulatory limits.
- 3) Written documentation regarding annual radiation safety refresher training that was provided to all radioactive gauge users from 2014-2019.
- 4) Written documentation that training has been conducted every 3 years for each gauge user related to the transportation of radioactive materials, as required by the Department of Transportation.
- 5) Copies of annual radiation safety program audits for 2014-2018.

Please provide the above listed documentation by email directly to myself. If you cannot locate a document, or believe a required task was not completed, please provide those details to me.

The written notification that the RSO has left and the subsequent amendment request may be emailed in pdf form to myself and Ms. Carol Hill at Carol.Hill@nrc.gov.

Please contact me if you have any questions regarding your response.

Regards,

Linda

Dear Ms. Hill:

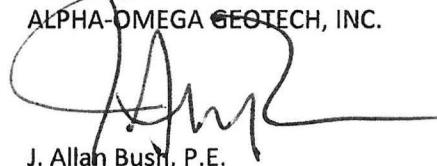

The purpose of this letter is to inform you of a change to the listed Radiation Safety Officer (RSO) position at Alpha-Omega Geotech, Inc. (AOG).

Mr. Tracy Welhoff with AOG will now be the active RSO. At your convenience, please update our license to reflect this change.

Included with this letter is an executed Application of Amendment, Model Delegation of Authority to Radiation Safety Officer, Duties & Responsibilities of the Radiation Safety Officer as well as Tracy Welhoff's certifications.

Please let us know if there are any questions, or if additional information is needed.

Sincerely,

Model Delegation of Authority to Radiation Safety Officer

Memo To: Radiation Safety Officer
From: Chief Executive Officer
Subject: Delegation of Authority

You, TRACY WELHOFF, have been appointed radiation safety officer and are responsible for ensuring the safe use of radiation. You are responsible for managing the Radiation Protection Program; identifying radiation protection problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; stopping unsafe activities; and ensuring compliance with regulations. You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of byproduct material by employees who do not meet the necessary requirements and shutting down operations, when justified, to maintain radiation safety. You are required to notify management if staff does not cooperate and does not address radiation safety issues. In addition, you are free to raise issues with the U.S. Nuclear Regulatory Commission at any time. It is estimated that you will spend 1-2 hours per week conducting radiation protection activities.

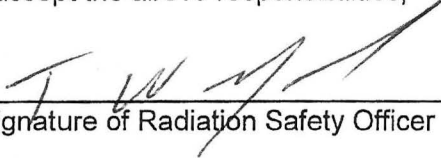

Signature of Management Representative

5-7-19

Date

I accept the above responsibilities,

Signature of Radiation Safety Officer

5-10-19

Date

cc: Affected department heads

Duties & Responsibilities of the Radiation Safety Officer

The radiation safety officer's (RSO's) duties and responsibilities (illustrated in Figure 8-1) typically include ensuring the following:

- Licensed activities that the RSO considers unsafe are stopped.
- Possession, use, storage, and maintenance of sources and gauges are consistent with the limitations in the license, the Sealed Source and Device registration certificate(s), and the manufacturer's recommendations and instructions.
- Individuals who use gauges are properly trained.
- Radiation exposures are kept as low as is reasonably achievable (ALARA).
- Prospective evaluations are performed to demonstrate that unmonitored individuals are not likely to receive a radiation dose in excess of the limits in 10 CFR 20.1502(a) or that personnel monitoring devices are provided.
- When necessary, personnel monitoring devices are used and exchanged at the proper intervals, and records of the results of such monitoring are maintained.
- Up-to-date operating, emergency, and security procedures are developed, implemented, maintained, and distributed.
- Safety consequences of nonroutine operations are analyzed before conducting any such activities that have not been previously analyzed.
- Nonroutine operations are performed by the manufacturer, distributor, or person specifically authorized by the U.S. Nuclear Regulatory Commission (NRC) or an Agreement State.
- Documentation is maintained to demonstrate, by measurement or calculation, that the total effective dose equivalent to the individual member of the public likely to receive the highest dose from the licensed operation does not exceed the annual limit in Title 10 of the *Code of Federal Regulations* (10 CFR) Part 20.1301, "Dose limits for individual members of the public."
- Gauges are properly secured.
- Proper authorities are notified in case of accident, damage to, or malfunction of gauges, fire, loss, or theft.
- Unusual occurrences involving the gauge (e.g., malfunctions, accident, damage, theft) are investigated, cause(s) are determined, and appropriate corrective action(s) are identified, and corrective action taken.

Subject: NRC Inspection

Mr. Bush,

Thank you for your assistance during the April 30, 2019, inspection of your NRC-licensed activities. I understand that the Radiation Safety Officer, which you listed on your NRC radioactive materials license has left the company as of March 15, 2019. You are required to notify the NRC when there are changes to your license. Thus, immediately

provide the NRC with a written notification that the RSO listed on the NRC license is no longer employed by your company, an estimate of when this individual will be replaced, and who will be responsible for implementing the radiation safety program in accordance with your NRC license and regulations.

When you identify a new Radiation Safety Officer, please send in a request to amend your license and provide the name, qualifications, list of specific duties and responsibilities, and a signed delegation of authority for this individual. I suggest using the guidance document, NUREG 1556, Vol 1., Rev 2, Consolidated Guidance About Materials Licenses when preparing your amendment request.

In addition, you agreed to provide me with information that could not be located during the April 30, 2019, inspection by Friday May 10. Below is a summary of the documentation I requested:

- 1) A written justification of the decision to cease monitoring radiation workers for occupational exposure and the date that decision was originally made.
- 2) Annual written assessments, from 2014 – 2018, that supports doses to members of the public were below regulatory limits.
- 3) Written documentation regarding annual radiation safety refresher training that was provided to all radioactive gauge users from 2014-2019.
- 4) Written documentation that training has been conducted every 3 years for each gauge user related to the transportation of radioactive materials, as required by the Department of Transportation.
- 5) Copies of annual radiation safety program audits for 2014-2018.

Please provide the above listed documentation by email directly to myself. If you cannot location a document, or believe a required task was not completed, please provide those details to me.

The written notification that the RSO has left and the subsequent amendment request may be emailed in pdf form to myself and Ms. Carol Hill at Carol.Hill@nrc.gov.

Please contact me if you have any questions regarding your response.

Dear Ms. Gersey:

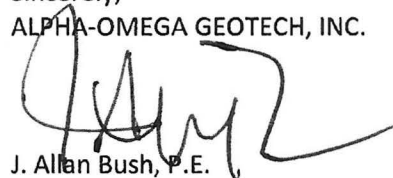

Mr. Jake Engler, the RSO currently listed on our NRC radioactive materials license, departed our firm on March 15, 2019.

Mr. Tracy Welhoff was formerly our RSO, and will be our newly appointed RSO. I contacted Roberto Torres (817-200-1189), and left him a voicemail message this afternoon. We anticipate submitting a request to amend our license including Mr. Welhoff's qualifications, list of specific duties and responsibilities, and a signed delegation of authority by Friday, May 17, 2019, if not sooner.

In the intervening time, I will be responsible for implementing the radiation safety program in accordance with our NRC license and regulations.

If you have any questions, please don't hesitate to contact me anytime.

Sincerely,
