Mr. David Drucker  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Dear Mr. Drucker,

Rising sea levels will in the near future inundate the Turkey Point  
Nuclear Power Plant.

Already this plant contaminates the waters surrounding it including  
The Biscayne National Park. These toxins are already entering the  
drinking waters of the peoples in the Miami area.

PLEASE do not extend the permit for this plant to run. It is time to  
shut it down before serious consequences arise from it in the near  
future.

To be noted: I have been and still am a resident of South Florida since  
1955, making this very important to me.

Sincerely,

Mr. Gilbert Hall
