Re: Control # 612087

Dear Mr. Struckmeyer,

Please see our response below to your Request for Additional Information.

- 1) No transaction or transfer of control has occurred involving change of ownership of Fluke Electronics Corp license # 34-25957-03E. Fluke is relocating into another Operating Company's facility.
- 2) Currently our radioactive materials license amendment request is in the hands of the Ohio Department of Health – Bureau of Radiation Protection. Fluke has requested an accelerated license approval for possession at 28775 Aurora Rd. on or about May 31st. It is understood that the commission will not issue an amended license before Ohio approves possession of radioactive materials at the new location. A copy of our amended license authorizing possession at 28775 Aurora Rd. will be emailed to you when received.
- 3) Distribution of products containing exempt quantities and exempt quantity materials will continue at 6045 Cochran Rd. until approval is received from both the Commission to distribute from and Ohio Department of Health to possess radioactive materials at 28775 Aurora Rd.

Regards,

Mark Svajger,

Radiation Safety Officer

Fluke Electronics Corp

Office: 440.542.3653
