- We are continuing to process your request.
- See Part I.D -- Comments.

PART I.A -- FEES

AMOUNT

- You will be billed by NRC for the amount indicated.
- You will receive a refund for the amount indicated.
- Fees waived.
- Since the minimum fee threshold was not met, you will not be charged fees.
- Due to our delayed response, you will not be charged search and/or duplication fees that would otherwise be applicable to your request.

PART I.B -- INFORMATION NOT LOCATED OR WITHHELD FROM DISCLOSURE

- We did not locate any agency records responsive to your request. *Note:* Agencies may treat three discrete categories of law enforcement and national security records as not subject to the FOIA ("exclusions"). See 5 U.S.C. 552(c). This is a standard notification given to all requesters; it should not be taken to mean that any excluded records do, or do not, exist.
- We have withheld certain information pursuant to the FOIA exemptions described, and for the reasons stated, in Part II.
- Because this is an interim response to your request, you may not appeal at this time. We will notify you of your right to appeal any of the responses we have issued in response to your request when we issue our final determination.
- You may appeal this final determination within 90 calendar days of the date of this response. If you submit an appeal by mail, address it to the FOIA Officer, at U.S. Nuclear Regulatory Commission, Mail Stop T-2 F43, Washington, D.C. 20555-0001. PART I.D -- COMMENTS

We reached out to the offices of Nuclear Material Safety & Safeguards (NMSS) and Region IV (RIV) to search for any records responsive to your request. However, no responsive records were located by the aforementioned offices.

In addition to these offices' searches, we undertook a review of the Material Licensing Tracking System (MLTS) database to locate any entities holding current licensees that list their addresses in major cities within Lincoln County, Oregon. No current licensees were identified. Region IV staff informed us that the United States Air Force (USAF), which holds a master materials license to issue permits for authorized radioactive materials, may have records responsive to your request. You may submit a FOIA request to the USAF; we have included a link to the USAF's FOIA webpage: <https://www.foia.af.mil/>. Additionally, because Oregon has been an Agreement State since 1965, it may maintain records of interest to you. Information about the NRC's Agreement State Program may be found at this link: <https://www.nrc.gov/about-nrc/state-tribal/agreement-states.html>. The State Liaison Officer is Ken Niles, Assistant Director, Nuclear Safety and Energy, Emergency Preparedness Division, Oregon Department of Energy. You may contact him by writing to 550 Capital Street, N.E., 1st Floor, Salem, OR 97301-3742, or sending an email to ken.niles@oregon.gov or telephoning (503)378-4906.
