Subject: update on schedule re 4/23/19 request - Maine Yankee Threshold determination
Date: Thursday, June 06, 2019 2:06:00 PM

June 6, 2019

Good afternoon Mr. Matthews,

I wanted to provide you with an update on the schedule related to your request dated April 23, 2019, with regards to Maine Yankee Atomic Power Company and a proposed acquisition of Emera Maine by ENMAX, a newly formed subsidiary. You requested that the NRC issue a Threshold Determination no later than August 30, 2019.

Your request is currently under review. Once I receive the input needed for this request, I will finalize the agency response. I should be able to complete this action before your requested date of no later than August 30, 2019. If I encounter any complications that will delay the agency response, I will let you know as soon as I am aware of any complications.

If you have any questions, please contact me as noted below. Please note that I am working remotely and you can reach me by calling me through the NRC operator at 301-415-7000, option 9, and ask to be connected to me at my home number.

Sincerely,

Torre Taylor
