EXTENSION OF DATE TO PROVIDE SUPPLEMENTAL INFORMATION  
RELATED TO ACCEPTANCE REVIEW OF REQUESTED APPLICATION FOR  
ORDER APPROVING CONSTRUCTION PERMIT TRANSFERS AND  
CONFORMING ADMINISTRATIVE CONSTRUCTION PERMIT AMENDMENTS  
(EPID NO. L-2018-LLM-0155)

Dear Mr. McCollum:

By letter dated April 5, 2019 (Agencywide Documents Access and Management System Accession No. ML18348B139), the U.S. Nuclear Regulatory Commission (NRC) staff sent Nuclear Development, LLC (ND), a letter identifying supplemental information needed for the staff to review the Bellefonte 1 and 2 construction permit transfer application. The staff's April 5, 2019, letter requested that ND provide supplemental information within three months from the date of that letter.

By letter dated June 4, 2019 (ADAMS Accession No. ML19155A243), ND requested an additional 60 days beyond the original deadline to respond to the NRC staff's April 5, 2019, letter.

The staff grants ND's proposed 60-day extension request for submittal of the supplemental information by September 6, 2019. During the additional 60-day response period, the staff will continue to consider the application to be deferred. If information fully responsive to the NRC staff's request is not received by the above date, the application will not be accepted for review, pursuant to 10 CFR 2.101, and the NRC will permanently cease its review activities associated with the application.

If you have any questions please contact me at 301-415-5848, or by electronic mail at [Bill.Gleaves@nrc.gov](mailto:Bill.Gleaves@nrc.gov).

Sincerely,
