Hello Janelle,

When I reviewed the letter you submitted I noted that a number of devices authorized on your license were not included with your response in Item 5 of the letter. As we discussed today, in order to remove the authorization for any of these devices from your license we request that you provide records showing that all devices of a specific manufacturer and model number have been disposed of or transferred to another licensed group. We also request that the most recent leak test for the device also be provided.

If you have never possessed a specific type of device and wish to remove the authorization from your license, please provide a statement confirming that the device has never been possessed under your NRC license.

If you do wish to continue to be authorized for any of the devices currently listed on your license, please include the device in the table provided in your response to Item 5.

I can be reached at 630-829-9712 or via email if you have any questions.

Thank you,
Laura Cender

Hello Janelle,

Thank you for returning my call this morning regarding your pending license amendment request. As we discussed, a record of our conversation is attached along with a copy of the change of control application we discussed.

Guidance for completing the Change of Control application can be found in NRC guidance document NUREG 1556 Vol. 15 Rev. 1 at the following link: <https://www.nrc.gov/docs/ML1618/ML16181A003.pdf>. Section 5 of this document provides detailed guidance for completing each section of the application.

Please provide your signed and dated response by no later than May 10, 2019. You may submit your response to me directly as an attachment via email, or to our regional office via regular mail or fax to 630-515-1078.

Please feel free to contact me at 630-829-9712 or send me an email if you have any questions.

Thank you,
Laura Cender
