**RE: Homestake Mining Company of California – Grants Reclamation Project –
Preliminary Groundwater Flow and Transport Model Report Addendum**

Dear Mr. Linton:

As per the December 31, 2018 NRC's approval for HMC's request for a due date extension for the Groundwater Corrective Action Plan (CAP) (ADAMS Accession No. ML18355A893), a milestone was set for submission of a preliminary groundwater model results report by June 3rd, 2019. The report has been compiled as an addendum to the March 4th submittal (ADAMS Accession No. ML19071A309). The addendum can be accessed via the OneDrive link provided below. An electronic copy of this groundwater model report addendum has also been submitted to the NRC's Document Control Desk.
