Re: Amendment/Update to 10 C.F.R. 2.206 Petition Regarding Tennessee
Valley Authority Changes to Employee Concerns Program Structure

Dear Ms. Doane:

On June 4, 2019 I wrote you and requested immediate intervention from the Nuclear Regulatory Commission ("NRC") to ensure that employees of the various Tennessee Valley Authority ("TVA") nuclear plants were reminded of their ability to contact the NRC directly with any imminent safety concerns that they may have. This request was based on the high profile actions taken by TVA management to undermine, and essentially, destroy the credibility and effectiveness of the Employee Concerns Program ("ECP"). Obviously, the NRC has rejected that request, since no immediate action was taken. This is an extremely disappointing response.
