Good afternoon Ms. Kritzman,

I have received the licensee's letter dated 3/20/19 with a request to removed Gd-153 sources and P-32 from the subject NRC license.

Please provide the following to proceed with the amendment:

- 1) Resubmit all the information including the cover letter in an email as a pdf document (the supporting documentation including NRC Forms 540 and 541 and inventory list is not legible).
- 2) Ensure NRC Form 540 Item 9, Consignee name and signature is present (I believe the forms and specifically Item 9 is blank) which attests that the sources were received. Also, you may submit a separate letter from the authorized recipient that the sources were received (provide a list of what sources were received).
- 3) Ensure the Gd-153 sources are listed on the shipping papers so identification/verification of the sources is possible.
- 4) Please provide leak testing results for Gd-153 before the sources were transferred, if required.

Please let me know if you have any questions.

Thank you
