SUMMARY AND ACTION REQUIRED (IF ANY)				
<p>This record is a summary of the conversation that occurred between Laura Cender and Joseph D. Williams, EIT on May 20, 2019 regarding the license amendment request dated May 13, 2019.</p> <p>Per our discussion today, please provide your signed and dated response by no later than May 31, 2019.</p> <p>1. Due to our updated licensed process, each type of portable gauge will now be authorized individually, on their own line, in Items 6-9 of the license. To facilitate this update please indicate the number of each of the following devices to be authorized:</p> <ul style="list-style-type: none"> a.) Troxler Electronic Laboratories Model 3400 Series b.) Troxler Electronic Laboratories Model 4640 Series c.) Troxler Electronic Laboratories Model 4545 d.) InstroTek, Inc. Model 3500 e.) Campbell Pacific Nuclear Model B(R) f.) Campbell Pacific Nuclear Model MC Series <p>To completely remove an authorization for a specific device from your license please provide final transfer and leak test records for any devices of that specific manufacturer and model number. If you wish to remove an authorization for a specific device that your organization has never possessed, please provide a statement confirming that no devices of the applicable manufacturer and model number have ever been used or possessed under your NRC license.</p>

Hello Joe,

Thank you again for taking time out of your morning to discuss your pending NRC license amendment request. As we discussed, attached is record of our conversation regarding the information required to update how licensed material is authorized in Items 6-9 of your license.

Please submit your signed and dated response by no later than May 31, 2019. Please feel free to give me a call at 630-829-9712 or send me an email if you have any questions.

Thank you,
Laura Cender
