Reference: Letter to USNRC from ARS International, LLC. Dated October 12, 2015,
"Activities at a Project Job Site Utilizing U.S. NRC Radioactive Materials License
No. 17-29441-01"

Letter to USNRC from ARS International, LLC. Dated August 11, 2017,
"Notification of Completed Initial Portion of a Project Job Site Using ARS
International, LLC. U.S. NRC Radioactive Materials License No. 17-29441-01"

Subject: Notification of Resumption of Phase 2 Decommissioning Activities at Robins Air
Force Base Building 181 Using ARS International, LLC. U.S. NRC Radioactive
Materials License No. 17-29441-01

Dear Ms. Hammond:

In accordance with radioactive materials license number 17-29441-01, Condition 15, ARS International, LLC (ARS) is notifying your office of its intent to resume decommissioning activities at a temporary job site at Robins Air Force Base in Warner Robins, Georgia. ARS and its wholly owned subsidiary, ARS Aleut Remediation, LLC (AAR), will resume radiological activities associated with the completion of decommissioning and final status survey of Building 181. Mobilization for this next phase will begin within the next 14 days.

AAR will perform these activities in accordance with ARS's radioactive materials license 17-29441-01, the previously approved Decommissioning Plan, and the recently approved Decommissioning Plan Addendum. This is a continuation of work activities at Building 181 which began in 2015. ARS/AAR remains a subcontractor to Geosyntec Consultants, Inc. Geosyntec is under contract to the United States Air Force (USAF) to perform decommissioning, MARSSIM final status surveys, and affiliated activities at Building 181.

Both the Decommissioning Plan Addendum and Phase 1 Final Status Survey Report have been reviewed extensively by the US NRC. The NRC has documented its review in the Safety Evaluation Report for the Robins project that is posted in ADAMS.

Please do not hesitate to contact me at 270-564-1800 should you have any questions.

Sincerely,

Kelly L. Ausbrooks, CHP
Corporate Radiation Safety Officer

Subject: [External_Sender] Notification of resumption of activities - Robins B181 - June 11 2019

Ms. Hammond,

Attached is notification of a resumption of decommissioning and final status survey activities at our Robins Air Force Base project. This notice is intended to provide continuing information on the status of the project which will enter its second phase within the next 14 days. The project has been extensively reviewed by the NRC throughout the performance of the Phase 1 activities including decommissioning, final status survey, report development, and the development of the addendum to the approved Decommissioning Plan, referred to as the Phase 2 addendum. Phase 2 involves the limited demolition of the concrete floors and apron followed by abatement of asbestos and the continued characterization and final status survey of a sub-grade basement and pipe chase identified during Phase 1. Dr. Robert Evans with your office has been extensively involved in the development and review of these documents, including our latest project status call conducted yesterday.

If you have any questions, please don't hesitate to contact me.

Thank you,
Kelly Ausbrooks

This is to acknowledge receipt of your: ☒ Letter and/or ☐ Application Dated: 06/11/2019

The initial processing, which included an administrative review, has been performed.

☒ Amendment ☐ Termination ☐ New License ☐ Renewal

☐ There were no administrative omissions identified during our initial review.

☐ This is to acknowledge receipt of your application for renewal of the material(s) license identified above. Your application is deemed timely filed, and accordingly, the license will not expire until final action has been taken by this office.

☐ Your application for a new NRC license did not include your taxpayer identification number. Please complete and submit NRC Form 531, Request for Taxpayer Identification Number, located at the following link: <http://www.nrc.gov/reading-rm/doc-collections/forms/nrc531.pdf>
Follow the instructions on the form for submission.

☐ The following administrative omissions have been identified:

Your application has been assigned the above listed MAIL CONTROL NUMBER. When calling to inquire about this action, please refer to this control number. Your application has been forwarded to a technical reviewer. Please note that the technical review, which is normally completed within 180 days for a renewal application (90 days for all other requests), may identify additional omissions or require additional information. If you have any questions concerning the processing of your application, our contact information is listed below:
