

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

March 11, 2019

IN RESPONSE REFER TO:
NRC-2019-000034

Jonathan McGaw
c/o Southern California Edison
San Onofre Nuclear Generating Station
PO. Box 128, Mail Stop D21
San Clemente, CA 92672

Dear Mr. McGaw:

The enclosed CD of records were identified by the U.S. Nuclear Regulatory Commission (NRC) staff as responsive to the above-referenced Freedom of Information Act (FOIA) request. Under the provisions of the FOIA, the NRC must determine whether the records, or any portions of the records, should be withheld from public disclosure.

The NRC must determine which portion(s) of the records, if any, should be withheld from public disclosure under exemption 4 of the FOIA, 5 U.S.C. § 552(b)(4), and 10 CFR 9.17(a)(4), because they contain trade secret or confidential commercial or financial information ("proprietary information"). We need information from you to assist us in determining whether any information contained in these records falls within FOIA exemption 4.

In addition, as the records originated with you, we are soliciting your comments on whether any portions of these records should be considered critical energy/electric infrastructure information (CEII). The NRC and the Federal Energy Regulatory Commission (FERC) have entered into a Memorandum of Understanding (MOU) regarding the treatment of CEII (<https://www.nrc.gov/docs/ML1816/ML18164A182.pdf>). Any information designated by FERC as CEII would be exempt from disclosure under exemption 3 of the FOIA, 5 U.S.C. § 552(b)(3), pursuant to Section 215A of Part II of the Federal Power Act, 16 U.S.C. § 824o-1.

You may either "mark" electronically (by using Adobe's highlight or comment functionality), or provide a separate narrative identifying any portions that your company believes should be withheld (e.g., by page, section, or paragraph). However, please make sure that you clearly identify which portions your company treats as proprietary, and which portions you believe should be considered CEII. Please return to me your marked copy, or narrative, along with the answers to the following questions in sufficient explanatory detail to permit the NRC to make a determination. If you do not object to the disclosure of the records, you need not answer the questions below.

If you believe any of the information in the enclosed records should be treated as proprietary, please answer the following questions:

1. Was the information transmitted to, and received by, the NRC in confidence? Please give details as to the circumstances in which the NRC obtained this information.
2. To the best of your knowledge, is the information currently available in any public sources?
3. Does your company customarily treat this information, or this type of information, as confidential? Please explain why.
4. Would public disclosure of this information be likely to cause substantial harm to the competitive position of your company? If so, how?
5. Since this information was transmitted to the NRC, have any events altered the proprietary character of the information? If so, please explain.

If you believe any of the information in the enclosed records should be considered CEII, please answer the following two questions:

1. Why do you believe the information should be considered CEII?
2. How long do you believe the information should be considered CEII?

We will consider carefully the response you provide to us. If the NRC determines that any information that your company identified in response to this letter should be disclosed, we will notify you of our determination, including a description of the information to be disclosed, the reason(s) for the NRC's determination, and the date by which the information will be made available to the public. 10 CFR 9.28(c).

Please provide your response to **Tina Ennis** no later than **April 10, 2019**. If we have not heard from you by this date, you will be considered to have no objection to disclosure of any of the records. **We realize there are a lot of records to review, and would appreciate it if you would provide partial responses upon completion of your review of a group of records at a time.** If you have any questions regarding this matter, you may reach **Tina Ennis** at **301-415-5616** or **Tina.Ennis@nrc.gov**

Sincerely yours,

Stephanie A. Blaney /s/

Good afternoon, Tina.

I just wanted to let you know that I received your package today. I am busy on other items today, but will open the disk and start processing the requests internally, tomorrow.

As you requested, I will work to send them back to you in partial groups, real-time. I see that you have requested us to complete our effort no later than April 10, 2019.

If I have any questions, I will let you know.

If you have any questions or require additional information, please contact me.

Thank you.

Jon McGaw

P.S. My normal work hours are: M-Th, 7:30 am – 5:30 pm (PDT)
Friday is usually a regular day off.

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

March 14, 2019

IN RESPONSE REFER TO:
NRC-2019-000034

Jonathan McGaw
c/o Southern California Edison
San Onofre Nuclear Generating Station
PO. Box 128, Mail Stop D21
San Clemente, CA 92672

Dear Mr. McGaw:

The enclosed CD of records were identified by the U.S. Nuclear Regulatory Commission (NRC) staff as responsive to the above-referenced Freedom of Information Act (FOIA) request. Under the provisions of the FOIA, the NRC must determine whether the records, or any portions of the records, should be withheld from public disclosure.

The NRC must determine which portion(s) of the records, if any, should be withheld from public disclosure under exemption 4 of the FOIA, 5 U.S.C. § 552(b)(4), and 10 CFR 9.17(a)(4), because they contain trade secret or confidential commercial or financial information ("proprietary information"). We need information from you to assist us in determining whether any information contained in these records falls within FOIA exemption 4.

In addition, as the records originated with you, we are soliciting your comments on whether any portions of these records should be considered critical energy/electric infrastructure information (CEII). The NRC and the Federal Energy Regulatory Commission (FERC) have entered into a Memorandum of Understanding (MOU) regarding the treatment of CEII (<https://www.nrc.gov/docs/ML1816/ML18164A182.pdf>). Any information designated by FERC as CEII would be exempt from disclosure under exemption 3 of the FOIA, 5 U.S.C. § 552(b)(3), pursuant to Section 215A of Part II of the Federal Power Act, 16 U.S.C. § 824o-1.

You may either "mark" electronically (by using Adobe's highlight or comment functionality), or provide a separate narrative identifying any portions that your company believes should be withheld (e.g., by page, section, or paragraph). However, please make sure that you clearly identify which portions your company treats as proprietary, and which portions you believe should be considered CEII. Please return to me your marked copy, or narrative, along with the answers to the following questions in sufficient explanatory detail to permit the NRC to make a determination. If you do not object to the disclosure of the records, you need not answer the questions below.

If you believe any of the information in the enclosed records should be treated as proprietary, please answer the following questions:

1. Was the information transmitted to, and received by, the NRC in confidence? Please give details as to the circumstances in which the NRC obtained this information.
2. To the best of your knowledge, is the information currently available in any public sources?
3. Does your company customarily treat this information, or this type of information, as confidential? Please explain why.
4. Would public disclosure of this information be likely to cause substantial harm to the competitive position of your company? If so, how?
5. Since this information was transmitted to the NRC, have any events altered the proprietary character of the information? If so, please explain.

If you believe any of the information in the enclosed records should be considered CEII, please answer the following two questions:

1. Why do you believe the information should be considered CEII?
2. How long do you believe the information should be considered CEII?

We will consider carefully the response you provide to us. If the NRC determines that any information that your company identified in response to this letter should be disclosed, we will notify you of our determination, including a description of the information to be disclosed, the reason(s) for the NRC's determination, and the date by which the information will be made available to the public. 10 CFR 9.28(c).

Please provide your response to **Tina Ennis** no later than **April 15, 2019**. If we have not heard from you by this date, you will be considered to have no objection to disclosure of any of the records. **We realize there are a lot of records to review, and would appreciate it if you would provide partial responses upon completion of your review of a group of records at a time.** If you have any questions regarding this matter, you may reach **Tina Ennis** at **301-415-5616** or **Tina.Ennis@nrc.gov**

IN RESPONSE REFER TO:
NRC-2019-000239

Mark Morgan
c/o Southern California Edison
San Onofre Nuclear Generating Station
PO. Box 128, Mail Stop D21
San Clemente, CA 92672

Dear Mr. Morgan:

The enclosed CD of records were identified by the U.S. Nuclear Regulatory Commission (NRC) staff as responsive to the above-referenced Freedom of Information Act (FOIA) request. Under the provisions of the FOIA, the NRC must determine whether the records, or any portions of the records, should be withheld from public disclosure.

The NRC must determine which portion(s) of the records, if any, should be withheld from public disclosure under exemption 4 of the FOIA, 5 U.S.C. § 552(b)(4), and 10 CFR 9.17(a)(4), because they contain trade secret or confidential commercial or financial information ("proprietary information"). We need information from you to assist us in determining whether any information contained in these records falls within FOIA exemption 4.

In addition, as the records originated with you, we are soliciting your comments on whether any portions of these records should be considered critical energy/electric infrastructure information (CEII). The NRC and the Federal Energy Regulatory Commission (FERC) have entered into a Memorandum of Understanding (MOU) regarding the treatment of CEII (<https://www.nrc.gov/docs/ML1816/ML18164A182.pdf>). Any information designated by FERC as CEII would be exempt from disclosure under exemption 3 of the FOIA, 5 U.S.C. § 552(b)(3), pursuant to Section 215A of Part II of the Federal Power Act, 16 U.S.C. § 824o-1.

You may either "mark" electronically (by using Adobe's highlight or comment functionality), or provide a separate narrative identifying any portions that your company believes should be withheld (e.g., by page, section, or paragraph). However, please make sure that you clearly identify which portions your company treats as proprietary, and which portions you believe should be considered CEII. Please return to me your marked copy, or narrative, along with the answers to the following questions in sufficient explanatory detail to permit the NRC to make a determination. If you do not object to the disclosure of the records, you need not answer the questions below.

If you believe any of the information in the enclosed records should be treated as proprietary, please answer the following questions:

1. Was the information transmitted to, and received by, the NRC in confidence? Please give details as to the circumstances in which the NRC obtained this information.
2. To the best of your knowledge, is the information currently available in any public sources?
3. Does your company customarily treat this information, or this type of information, as confidential? Please explain why.
4. Would public disclosure of this information be likely to cause substantial harm to the competitive position of your company? If so, how?
5. Since this information was transmitted to the NRC, have any events altered the proprietary character of the information? If so, please explain.

If you believe any of the information in the enclosed records should be considered CEII, please answer the following two questions:

1. Why do you believe the information should be considered CEII?
2. How long do you believe the information should be considered CEII?

We will consider carefully the response you provide to us. If the NRC determines that any information that your company identified in response to this letter should be disclosed, we will notify you of our determination, including a description of the information to be disclosed, the reason(s) for the NRC's determination, and the date by which the information will be made available to the public. 10 CFR 9.28(c).

Please provide your response to **Tina Ennis** no later than **May 28, 2019**. If we have not heard from you by this date, you will be considered to have no objection to disclosure of any of the records. **We realize there are a lot of records to review, and would appreciate it if you would provide partial responses upon completion of your review of a group of records at a time.** If you have any questions regarding this matter, you may reach **Tina Ennis** at **301-415-5616** or **Tina.Ennis@nrc.gov**

Sincerely yours,

Stephanie A. Blaney /s/

Tina,

Let us look at this and we will respond on Thursday if that is OK. By the way we have received the additional CD and are working on that request currentl.

Thanks

Jeff

Subject: [External_Sender] SCE Response to FOIA Request NRC-2019-000034

Tina,

Please find attached our response to the NRC FOIA request NRC-2019-000034. This provides the SCE response to both letters addressed to Jonathon McGaw dated April 4, 2019 and March 14, 2019.

Regards,
Jeff Summy

Jeff,

Our mailroom has no record of sending it; therefore, I resent today via USPS priority express mail. The tracking number is EE 246 186 151 US.

Thank you,

Tina Ennis

Tina,

Mark received an email on April 17th indicating we would be receiving another CD. As of today we have not received the FedEx package. I wonder if you could provide the FedEx tracking number so we can find out where the package might be.

Thanks in advance for your help.

Jeff Summy
