Re: License Amendment #21-32606-01

Dear Sir or Madam:

I would like to request an amendment to Radioactive Material License No. 21-32606-01 to authorize SMAC Testing, Inc. to use the InstroTek, Inc. Model 3500 Xplorer nuclear moisture/density gauge for measurement of soils and construction materials. The Model 3500 is registered under Sealed Source & Device Registration Certificate No. NC-1241-D-101-S, and contains the following sealed sources:

1. Cs-137 (AEA Technology QSA Model No. CDC.805 or Isotope Products Laboratories Model HEG-137)  
Maximum activity: 11 mCi
2. Am-241:Be (AEA Technology QSA, Inc. Model No. AMN.V977 or Isotope Products Laboratories Model AM1.NO2)  
Maximum activity: 44 mCi

Possession Limit: (2) sources not to exceed 22mCi of Cs-137 and 88mCi of Am-241:Be.

Please let me know if I can provide any additional information.

Sincerely,

Stuart J. MacDonald  
Radiation Safety Officer  
SMAC Testing, Inc.

**Subject:** Renewal of your NRC Materials License

Good Afternoon Stewart,

As we discussed on the telephone, Ms. Shaffer no longer works in the Material Licensing Branch. You can either submit your amendment request to me via email or you can fax it to 630-515-1078. attn Materials Licensing Branch.

Thank you very much,

*Erin Kennedy*
