

TETRA TECH EC, INC.

Date: October 7, 2010

Subject: Modification to Memorandum of Understanding, United States Nuclear Regulatory Commission - License Use at Hunters Point Shipyard

Effective immediately and specific to project award activities ongoing at the Hunters Point Shipyard (HPS), the above referenced Memorandum of Understanding (MOU) - with modifications incorporated as attached and dated October 7, 2010, will replace the preceding MOU of record dated June 10, 2010. This action is necessary in order to reflect the following:

- Expanded scope of work specific to use of Shaw Environmental & Infrastructure, Inc (Shaw) NRC Materials License 20-31340-01 for work involving radioactive materials under Contract Number N62473-08-D-0822 Contract Task Order (CTO) 0005 Time-Critical Removal Action (TCRA) for the PCB Hot Spot Area and Contract Number N62473-08-D-0822 CTO 0006 Parcel D-1 Radiological Remediation and Support.

Acknowledgment of the above referenced modification by designated Radiation Safety Officer Representatives for the HPS project teams is indicated by their signature as entered below.

Bert Bowers, TtEC Radiation Safety Officer Representative
