Subject: [External_Sender] Decommissioning Funds
Date: Thursday, June 27, 2019 12:53:44 PM

To whom it may concern,

Please consider allowance for the use of decommissioning funds for components that are scheduled for long term storage at reactor facilities. It does not make sense to have a licensee store a piece of equipment that qualifies for decommissioning funds for decades awaiting the station to actively begin the decommissioning process. The stations should be allowed to dispose of that type of equipment, at today's dollar cost, to the decommissioning funds and prevent additional cost for storage, maintenance and security expenses. Thank you for your time and consideration.
