Norma,

The attached shows TN's suggested changes to the call summary. We understand that you may judge not to include some of these.

We apologize for confusion over our company name. We generally go by our NRC-approved QA program document, which still says "TN Americas LLC."

Thank you,

Don

Subject: Review Summary of Phone call on FQT: Graded Approach

Security Notice: Please be aware that this email was sent by an external sender.

Good afternoon,

Attached is the meeting summary on last week's meeting to discuss the proposed methodology to address the question related to the fuel qualification table (graded approach). Please review the document and provide comments to me at your earliest convenience.

Thanks,

Norma Garcia Santos
