RE: Notification of Completion of Transaction – Transfer of License 07-13441-02 to DuPont Specialty Products USA, LLC.

Dear Ms. Ullrich,

This letter is to notify the US Nuclear Regulatory Commission (NRC) Region 1 of the completion of the transaction that was outlined in our January 25, 2019 letter to agency. DowDuPont Inc. has separated into three independent publicly-traded companies. On June 3, DuPont de Nemours, Inc. (“DuPont”), formerly known as DowDuPont Inc., announced its debut as an independent company following the successful separation of its Agriculture Division through the spin-off of Corteva, Inc. For reference, a copy of the June 3, 2019 8-K filing can be found at <https://www.investors.dupont.com/investors/dupont-investors/filings-and-reports/sec-filings-details/default.aspx?FilingId=13469413>.

DuPont Specialty Products USA, LLC is a subsidiary of DuPont de Nemours, Inc. Dupont Specialty Products USA, LLC is the owner and operator of the licensed activities under License 07-13441-02 at the Experimental Station and Chestnut Run facilities. We respectfully request that the NRC issue the amendment of License 07-13441-02 to DuPont Specialty Products USA, LLC.

Mr. John M. Brisbin, DuPont Specialty Products USA, LLC (NRC License 07-13441-02) Radiation Safety Officer, may be contacted for additional information at (302) 695-6896, cell (302) 420-2233, or by E-mail at JOHN.M.BRISBIN@USA.dupont.com.

Sincerely,

Myoshi C. Aubain
