Cranberry Township, PA 16066

SUBJECT: U.S. NUCLEAR REGULATORY COMMISSION PROPRIETARY DETERMINATION
LETTER FOR CHANGES TO WCAP-16097, REVISION 4, "COMMON QUALIFIED
PLATFORM TOPICAL REPORT" (EPID: L-2019-TOP-0012)

Dear Ms. Zozula:

By letter dated July 11, 2019 (AW-19-4917, Agencywide Documents Access and Management System (ADAMS) Accession No. ML19193A134), Westinghouse Electric Company (Westinghouse) submitted changes to WCAP-16097, Revision 4, "Common Qualified Platform Topical Report." Also submitted was an affidavit dated July 11, 2019, executed by Korey L. Hosack, Manager, Product Line Regulatory Support. The affidavit requested that the information in the subject submittal be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* Section 2.390 (10 CFR 2.390).

A nonproprietary copy of the information was not provided. Westinghouse stated the reason was due to the extensiveness of the proprietary information in the document.

Westinghouse detailed the reasons for withholding in its affidavit.

The U.S. Nuclear Regulatory Commission (NRC) staff has reviewed your application and the material in accordance with the requirements of 10 CFR 2.390. Based on the statements in the affidavit, the NRC staff has determined that the submitted information contains proprietary, commercial information and should be withheld from public disclosure.

Therefore, the submitted information marked as proprietary will be withheld from public disclosure under 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, the agency may send copies of this information to its consultants working in this area. The NRC staff will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC staff.

You also should understand that the NRC staff may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions or require any additional information, please feel free to contact me at 301-415-7297 or by via electronic mail at Joseph.Holonich@nrc.gov.

Sincerely,

/RA/

Joseph J. Holonich, Senior Project Manager
Licensing Processes Branch
Division of Licensing Projects
Office of Nuclear Reactor Regulation
